Dear Ma/Sir,

With two years of professional experience in front-end development of web applications, I am pretty confident I will be an excellent fit for any frontend developer role. My experience has provided me with the innovative and technical skills necessary to successfully provide your team with technical solutions across a range of frontend technologies.

In Teqbridge, I am responsible for the front-end development of web applications. I oversee the building of user interactive webpages, employing my knowledge of HTML, Bootstrap, PostgreSQL, CSS/SASS, JavaScript/React, and Typescript/Angular.

- ✓ **I created front-end codes to consume APIs for the purpose of displaying data on the webpage**
- ✓ **Equipped the portal with QR code scanner and with designs that are user interaction friendly**
- ✓ **I added validations to forms and input fields to avoid user inserting invalid data**
- ✓ **I added a chat-bot system to enable users that are stuck communicate their challenges to a customer service**
- ✓ **I was involved in the application test cases, removed bugs to ensure a fulfilled satisfaction in the use of Lagos State Egis portal**
- ✓ **I added features like spinners as loading flags to be utilized when users make asynchronous requests on browsers**
- ✓ **I created a data-table with CRUD functionalities, filtering, sorting, pagination, columns with drag and drop features and adjustable columns**

I have refined my strengths through these years of experience in software development, where I provided solutions in database technology, programming, operating systems. The following is a snapshot of my broader technical skills:

- ✓ **Debugging Applications (Angular and React)**
- ✓ **Frontend Development (Angular and React)**
- ✓ **Custom Web Applications**
- ✓ **Cloud Hosting**
- ✓ **Research Analysis**

It would be of much fulfillment to learn more about your company, and I would welcome the opportunity to offer my skillset and value to the endowment of your company's growth and vision.
